

Japan and ECHA have signed a Statement of Intent

June 15th, 2011

Chemical Management Center

National Institute of Technology & Evaluation (NITE)

Japanese chemical management related government bodies and European Chemicals Agency (ECHA) have signed a Statement of Intent to promote their cooperation.

The aim is to strengthen information exchange, scientific dialogue and technical cooperation towards common interest between Japan and EU to protect pollution by chemical substances which may have effect on human health or the environment. Areas of the cooperation include 1) information exchange on chemical management scheme, 2) technical cooperation on QSAR, 3) information exchange on risk assessment scheme and data.

This is the first document on chemical management cooperation signed by the Japanese government bodies. Future improvement of cooperation is expected.

● Signatory
